

Phoncell SX5D Dual Band GSM 900/1800 MHz Fixed Wireless Phone Kit

The **Phoncell SX5D Dual Band GSM 900/1800 Phase 2+ Fixed Wireless Phone** provides voice, GPRS packet data, digital computer fax, and circuit switched data. Access the Internet, utilize SMS using the phone keypad or a standard PC keyboard, send and receive e-mails and digital faxes with the SX5D GSM Phone over GSM 900 and GSM 1800 networks. *Fax and data services are subject to network capability. Consult Telular Corporation for non-kit pricing.*

Standard SX5D Dual Band GSM 900/1800 Kit includes the SX5D, antenna, power supply with the appropriate power plug for your region, and operator's manual. See the Power Plug Selection chart below to determine the appropriate country code (XX).

Kit Model Number	
SX5D-G98D-00-XX	

SX5D Dual Band GSM 900/1800 Kit with Battery Backup (BBU)

is the same as the Standard SX5D Dual Band GSM 900/1800 kit above with an external battery backup unit with power supply and one (1) 6-volt, 4 AH lead acid rechargeable battery. The Battery Backup Unit provides limited uninterrupted talk time and standby operation in the event of AC power failure.

Kit Model Number	
SX5D-G98D-11-XX	

SX5D Dual Band GSM 900/1800 Kit with Battery Backup (BU) and No Battery is the same as the SX5D Dual Band GSM 900/1800 Kit with Battery Backup (BBU) above without battery.

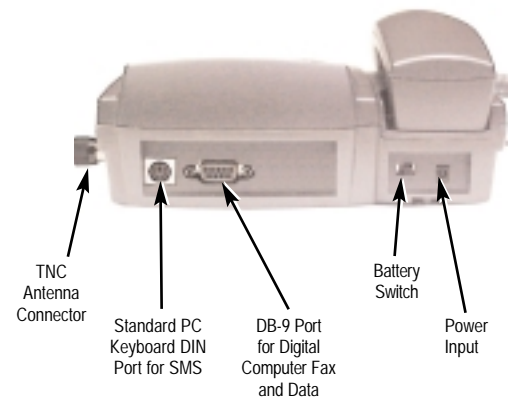

Kit Model Number	
SX5D-G98D-10-XX	

Power Plug Selection (XX = Country Code)
