THURAYA DSL

Products

high speed
IP data
services
**Access Beyond
Go Satellite**

Go 'Online' anytime, anywhere...

ThurayaDSL satellite IP modem offers "always on" high-speed GPRS packet data communication via Thuraya satellite – go online for as long as you like, anytime, anywhere in Thuraya's coverage area of more than 110 countries in Europe, North and Central Africa, large parts of Southern Africa, the Middle East, Central and South Asia.

With ThurayaDSL satellite IP modem, you can stay connected to the Internet – send or receive data at speeds up to 144 Kbps via a shared channel.

ThurayaDSL provides corporate customers, government agencies, NGOs, news-gathering agencies and individuals with a cost effective solution for their high-speed data requirements, even in areas where competitive high speed Internet access is not available.

Benefits and Applications of ThurayaDSL

- **Reliable high-speed connectivity:** Up to 144 Kbps anywhere within Thuraya's coverage area, allowing access to plenty of services and applications including:
 - High speed Internet access with its standard applications
 - Email and web mail
 - Intranet
 - Web browsing
 - E-commerce
 - File Transfer Protocol (FTP)
 - Virtual Private Network (VPN)
- **Competitive:** Volume-based usage charging regardless of connection duration
- **Choice of subscription schemes:** Postpaid and Prepaid subscriptions available to meet a wide range of usage and budget control requirements
- **Light, compact, portable and user-friendly**
- **Remote Office:** Connect to an external wireless LAN device through the Ethernet port to establish remote office environment anywhere in Thuraya's coverage area.

How does ThurayaDSL work?

- **ThurayaDSL** satellite IP modem connects to a notebook or a desktop computer via an Ethernet port. Web based user interface provides details of the operational status of the connection.
- Once connected, you can enjoy access to the high-speed Internet and data communications world with its various applications.
- **ThurayaDSL** SIM Card is required to access the service.

Technical Specifications

Weight	1.6kg (3.5 lbs) terminal and battery
Size	305 mm x 245 mm x 45 mm (12" x 9.6" x 1.7")
SIM Card	Yes
Operating temperature	-10°C to +55°C (14°F to 131°F)
Operating humidity	95% RH at 40 °C (104°F)
Input Voltage	12 volt DC
Mechanical Vibration	200-2000 Hz, 0.3 m ² /s ³
Unpacked Drop	0.5 m on concrete
Solar Radiation	1120W/m ² ; MIL-SPEC 810E 505.3
Water and dust proofing	IP-54 as standard
Air pressure for transport at altitude	4500 m AMSL; MIL-SPEC 810E METHOD 500.3
Battery Life	Under nominal conditions 24 hours standby time and 1 hour of continuous transmission at highest rate
Battery Type	Lithium-Ion
External Power	Mains power supply adapter.
Connectors	Ethernet (RJ-45)
User Interface	Web page based graphical user interface accessible via standard web browser.

Compatibility

ThurayaDSL is compatible with the following operating systems:

- Windows ® 98 second edition
- Windows ® ME
- Windows ® NT 4.0 (Service pack 3)
- Windows ® 2000
- Windows ® XP
- Mac OS X v10.1 or later

ThurayaDSL is compatible with the following Internet browsers:

- Microsoft Internet Explorer version 5.5 or later.
- Netscape Communicator version 7.0 or later.
- Microsoft Internet Explorer 5 for Mac or later.
